How To Be An Official Casumo Streamer

We are all about supporting you guys on Twitch or Youtube, but let's face it, it's a competitive world out there. And at Casumo, we have a pretty clear idea on how we would like to be promoted. So give this a thorough read through and figure out whether you would be the perfect fit for us.

Firstly, you'll need to have 500+ followers before we can start talking. Meaning that if you have an active channel with an existing, engaging community and great content, we would probably love to work with you.

Secondly, please draw up a clear idea of your strategy and present it to us. We want to know all about your plans and how we can help you to execute them in the best possible way.

Did you manage to successfully pass the previous steps? Then yay, welcome to Casumo! Your account will be approved. **If you didn't make it yet, please don't give up and come back when you are better prepared and time feels right.**

Business Talk

We are super excited that you have joined us as an official streamer of Casumo. Now let's talk business! We can offer you an 80% reload bonus - not more not less. This is what we offer each and every streamer, which means that everyone receives an equal support from our end. Why do we give you a 80% reload bonus you wonder? The reason behind it, is because we want the stream to be realistic. It will not have the same effect if we give you loads of free money to play with whilst streaming, because that way it simply won't be real. We want to be honest and transparent towards our customers and besides, we don't believe in building a relationship that is only based on us supporting you by giving away free money. We would love for you to play at our casino and in return, we support you in our best possible way. For starters, a revenue share deal up to 40% for all the tons of traffic that you will send our way.

NEXT: Put a banner up, get your tracking link and ooooff you go

So here we are. Hopefully you are streaming us already and it's a big hit! However, inevitably there are some rules (read: Casumo Law) that deserve your full attention and respect - if you want to continue being an affiliate of us.

The Law: Any content or activity featuring, encouraging, or soliciting illegal activity is strictly prohibited.

The Language: Be on your bestest behavior whilst streaming for Casumo or your account will be suspended in no time. We, under no circumstances, accept rude language, threats, any type of harassment, the sharing of inappropriate information or any kind of activity that would harm others or Casumo in any possible way.

The Content: Respect property rights and do not share wrong information about Casumo. We want to avoid disappointed players that have heard or read about incorrect information coming from your end.

The Compliancy: If you want to stream in the UK or if you are planning to stream in English then you will need to be +25 years old. These are strict rules coming directly from the UKGC and we will follow them at all times.

The Mantra: Keep in mind (forever and ever) that you are an ambassador for responsible gaming - and act like one.

Thanks a big
bunch for your
consideration, let's
rock together.
